BALLABROOIE,
HIGH GROUND,
BANGALORE.

12th April 1918.

My dear Barge,

To show once more that my complaint of growth of work is not overstated, I send herewith a statement of - - papers disposed of in the second half of March 1918. If from that period, one day spent on Council work every week and one day exclusively spent in interviews, are omitted, you will find that the number of matters dealt with was - 818 in 11 days or about 75 matters a day. This calculation does not exclude Sundays from my working hours. You may imagine how, after doing this much of routine work, it is possible for me to attend to large constructive schemes of which there are always quite a number awaiting urgent consideration.

Yours sincerely,
M. Visvesvaraya
